

Jasmine Rocha vs. Enriquez

Video	https://www.youtube.com/watch?v=pwGbW5GZgfc
Title	Watch Every ADCC Trials Finals From 2023-24 (Over 8 Hours Of Action!)
Channel	FloGrappling
Uploaded	20240707
Video length	8:29:33
Frames sampled	64, one every 5s
Covers	5:54:44 to 5:59:59 of the video
Footage type	full match
Source note	ADCC Trials Finals 2023-24 compilation, named range from the header index

How to read this

Every frame carries a VIDEO-ABSOLUTE time -- seconds from the start of the video at the URL above, NOT seconds from the start of the bout -- printed as text directly above it. Those times run from 5:54:44 to 5:59:59.

Return every timestamp in that same video-absolute clock. If the bout starts partway into the video, say where it starts as a separate field -- do not rebase the event times to it. A bout-relative time reported as an absolute one places the whole fight in a different part of the broadcast, and the result looks plausible while being wrong.

THE CAPTION TEXT BESIDE EACH FRAME IS A GUIDE, NOT GROUND TRUTH. It is an auto-caption of live commentary: the commentator misnames athletes, talks about one bout while another is on screen, anticipates and speculates, and the text lags the picture. When the caption and the frame disagree, THE FRAME WINS. Use the caption to orient where to look and to break a tie on a label -- never to record an event you did not see in the frame itself.

For each event you can see, give:

<code>ts</code>	integer seconds, video-absolute
<code>label</code>	a technique name, taken verbatim from the label list
<code>actor</code>	which competitor did it, by name
<code>successful</code>	true if it landed, false if attempted and stopped
<code>type</code>	one of: control, submission, guard, takedown, pass, transition, sweep, escape
<code>points</code>	points the scoreboard awarded for THIS action; omit if you cannot read it

Points are the one thing the scoreboard is authoritative for, and reading footage is the first time they are visible at all -- a transcript only ever carried what a commentator said aloud. So: report `points` only when you can actually read the number change on the scoreboard between frames, attribute it to the action that caused it, and OMIT the field otherwise. Never write 0 to mean 'I could not tell' -- an action that scored nothing and an action nobody could score are different facts, and only an absent field holds the second. If the score jumps and you cannot see which action earned it, say so in `note` on the nearest event rather than guessing an attribution.

Also return, once per bout: the two competitors' names, the event/card name, the year, who won and how, `bout_start_seconds` -- the video-absolute second the bout begins -- and `final_score` as "a-b" if the scoreboard shows one. If this video contains more than one bout, return one such object per bout.

LABELS ARE A CLOSED VOCABULARY. Take each `label` verbatim from `node_library.json`, which lists every technique the library knows, most-used first. A label is normalised into a node key, and that key IS the node in every graph it reaches -- so a spelling the library does not have does not fail, it mints a second node, and one technique arrives split in two with no error anywhere. Where two listed names could both fit, take the one printed higher: that ordering is how often the corpus already uses it. If a frame genuinely shows something the list does not cover, use your own words and flag it as `new_label: true` rather than bending it into the nearest listed name.

NOT EVERY FRAME IS LIVE ACTION. A broadcast cuts to slow-motion replays, usually right after a finish or a scoring exchange, and a replay looks exactly like the thing it replays. Read one as new action and the same event is recorded twice, seconds apart, which downstream reads as a repeated technique rather than one shown twice. Tells: a graphics bug or logo appears, the clock stops or disappears, the camera angle changes, the action repeats something you already saw. Skip those frames rather than logging them, and say in the note which range you treated as replay.

AND NOT EVERY FRAME IS THIS BOUT. A broadcast cuts away -- to another mat, to a different match's scorecard, to a crowd shot or an ad -- and it may show two bouts in sequence with a gap between rounds. A reader found exactly that in this batch: a scorecard from an unrelated match sitting in the middle of the sampled frames. Events read off a cutaway land on the wrong athletes entirely, which is worse than missing them. Before logging any event, confirm the frame shows the two competitors you identified, and say in the note which ranges you excluded as not-this-bout.

THE SCOREBOARD'S NAME ORDER IS NOT A MAT POSITION. A lower-third graphic puts one name left and one right by broadcast convention; which competitor stands where on the mat is unrelated and changes shot to shot. Binding a name to a body through that order is the single highest-cost error available here, because `actor` is on every event -- get it backwards and the whole answer inverts at once, while still looking internally consistent. Bind identity to something carried ON the athlete instead: a name printed on the back of the rashguard, kit colour, sleeve length, an ankle band, hair. Then check that discriminator against a frame where the scoreboard and the bodies are visible together, and say in `identity\_verified\_by` which frame did it.

REPORT ONLY WHAT YOU ARE CONFIDENT OF -- but report uncertainty by getting COARSER, not by staying silent and not by guessing. If the frames show that something happened and you cannot tell exactly which technique it was, use the generic label the library already carries -- `Guard Pass` rather than a named pass, `Takedown` rather than a named entry, `Submission` rather than a named finish, and likewise `Sweep`, `Escape`, `Guard`. A generic label is the honest answer at the resolution these frames give you; a specific one you inferred is a claim about a technique nobody saw, and once it is in the athlete's graph nothing downstream can tell it from an observed one.

This matters most across the sampling gap. At one frame every 5s a technique can start and finish between two samples, leaving only its result visible -- a competitor who was on top now underneath, a grip that is now a finish. Recording that result generically is correct. Naming the entry you did not see is not, however obvious it feels. The same rule covers `actor`: if you cannot tell which competitor did it, say so in `note` rather than picking one, because a right technique on the wrong athlete is two errors.

The result line at the top, when there is one, comes from the athlete's BJJ Heroes record. It is there so you can tell the two competitors apart and know the bout ended -- it is NOT evidence of anything you cannot see. Do not report a finish, a technique or a score because that line names it: an armbar listed as the method and an armbar visible in the frames are two different claims, and only the second belongs in your answer.

Only report what a frame actually shows. The scoreboard settles POINTS and nothing else: a technique you infer from a score change but never see is worth less than an omission, because a wrong label propagates into the athlete's graph and their rating and nothing downstream can tell it from an observed one. An omission is recoverable; an invented event is not.

5:54:44 (21284s)

Three. Not that we're keeping track, but three out of five matches.

5:54:49 (21289s)

(no narration in this window)

5:54:54 (21294s)

(no narration in this window)

5:54:59 (21299s)

All right, points on. Let's see if Yeah, let's see if the pace changes. Yeah, if Enriquez picks up the pace or changes the strategy.

5:55:04 (21304s)

And the same can be said for Jas Roachcha. She's been very patient on bottom.

5:55:09 (21309s)

Largely trying to meet Enriquez on the way in. Yeah.

5:55:14 (21314s)

And again, see Enriquez more staying with that loose passing to get herself here.

5:55:19 (21319s)

(no narration in this window)

5:55:24 (21324s)

(no narration in this window)

5:55:29 (21329s)

trying to control that top leg. Push off from Oh my goodness. Jasmine Roachcha pushes off in the turtle now. One hook in.

5:55:34 (21334s)

(no narration in this window)

5:55:39 (21339s)

Move. What a move from Roacha. Spinning for the back. Got to be careful not to get off the top, but one hook in now.

5:55:44 (21344s)

And she's got the double under. So it's going to help her from losing like having her chest go too far past the shoulders. Man, if I'm her now, I am P.

5:55:49 (21349s)

(no narration in this window)

5:55:54 (21354s)

And look at that trying to fight that foot to the bottom side so she could triangle off on the far side of the hip.

5:55:59 (21359s)

Threatening with the right arm here is Roachcha. Move by Jasmine Roachcha.

5:56:04 (21364s)

And you see Enriquez, she's going to have to Is this a choke opportunity? Oh, she's got the arm around the neck.

5:56:09 (21369s)

It's going to make Enriquez pull her arm up and she's going to be able to get that hook in. And she does. She's going to score here. Oh, this looks like it could be tight. Enriquez trying to fight off that hand.

5:56:14 (21374s)

(no narration in this window)

5:56:19 (21379s)

Oh, it's a it's on the mandible, too. This is tight.

5:56:24 (21384s)

Not quite under the chin like I thought initially. Wow. But control of the back in 2 minutes and 30 seconds. Got her three. Now once again locking it in.

5:56:29 (21389s)

(no narration in this window)

5:56:34 (21394s)

Roachcha going palm to palm.

5:56:39 (21399s)

Enriquez able to clear that arm over top. And that was a little that started from a little push kick from Roachcha.

5:56:44 (21404s)

Followed her up and to not get scored on what happened? She had to show her her back.

5:56:49 (21409s)

And Jasmine knew that and jumped right on it. Beautiful work. Jasmine has tried and tried and tried and gotten so close

5:56:54 (21414s)

(no narration in this window)

5:56:59 (21419s)

on so many different occasions to get her ticket to the ADCC Worlds.

5:57:04 (21424s)

And if she can control the East Coast trials champion for the next minute and 45 seconds, she will punt her ticket to the T-Mobile Arena. Jay,

5:57:09 (21429s)

(no narration in this window)

5:57:14 (21434s)

yeah, what a what a great strategy to move to the scoring position from

5:57:19 (21439s)

Roachcha. Again, Enriquez is such a hard person to to sweep and hold down,

5:57:24 (21444s)

(no narration in this window)

5:57:29 (21449s)

but in this situation to not be scored on, you have to put yourself at a disadvantage. And Roachcha just jumped all over the opportunity.

5:57:34 (21454s)

(no narration in this window)

5:57:39 (21459s)

That's where that experience comes in competing in the ADCC rule set all the time. There's an 80C open in a different state pretty much every month. And Jasmine Roach has a lot of them.

5:57:44 (21464s)

(no narration in this window)

5:57:49 (21469s)

And 110. Enriquez is not only gonna have to get herself out of this position, but either get to the back herself, get a guard pass. Like she's got a lot of work to do in a minute.

5:57:54 (21474s)

(no narration in this window)

5:57:59 (21479s)

Jasmine Roacha flattening the hips out to respond to that turn. Just under one minute. Up by three. She knows.

5:58:04 (21484s)

(no narration in this window)

5:58:09 (21489s)

Preemptive showboating by Jasmine Roachcha. They're getting very close to the crowd here trying to come across. So, she's got it sunk in again here. Right.

5:58:14 (21494s)

(no narration in this window)

5:58:19 (21499s)

(no narration in this window)

5:58:24 (21504s)

Hard to tell how deep this is. Oh, it's underneath the chin. Can you see it?

5:58:29 (21509s)

Jasmine Roach wins ADCC Trials. The Roachers are going to the T-Mobile Arena.

5:58:34 (21514s)

[Applause] What a beautiful moment. Vagner, she finally makes it happen.

5:58:39 (21519s)

(no narration in this window)

5:58:44 (21524s)

Wow. What a finish. and and and again strategy and what a moment

5:58:49 (21529s)

that that family gets to share Jasmine Roachcha with the performance of her life across

5:58:54 (21534s)

(no narration in this window)

5:58:59 (21539s)

the weekend. Jay Regalutoo tough matches. How about that?

5:59:04 (21544s)

I mean taking out Musetchi last round and now taking out Alex Enriquez and she's in.

5:59:09 (21549s)

(no narration in this window)

5:59:14 (21554s)

[Music]

5:59:19 (21559s)

Wow. How about that? How about that? How about that, Jasmine Roachcha?

5:59:24 (21564s)

(no narration in this window)

5:59:29 (21569s)

Let's take a look at the replay. Jasmine Roachcha comes out. Here it is.

5:59:34 (21574s)

And like you said, right here, Jay, what's she going to do? She has to turn away to not be scored on and show the back. Jasmine had the double unders so

5:59:39 (21579s)

(no narration in this window)

5:59:44 (21584s)

her chest moving past the shoulders wasn't going to be an issue. Slides that single hook in. Throws the threat. Had to bring the hands up so she could

5:59:49 (21589s)

figure four. What the strategy following through on it. Able to even get the finish on this.

5:59:54 (21594s)

(no narration in this window)

5:59:59 (21599s)

What a beautiful beautiful work by Jasmine Roachcha.
