

Watch Every ADCC Trials Finals From 2023-24 (Over 8 Hours Of Action!)

Video	https://www.youtube.com/watch?v=pwGbW5GZgfc
Title	Watch Every ADCC Trials Finals From 2023-24 (Over 8 Hours Of Action!)
Channel	FloGrappling
Uploaded	20240707
Video length	8:29:33
Frames sampled	30, one every 20s
Covers	6:20:05 to 6:29:45 of the video
Footage type	full event
Source note	ADCC Trials Finals 2023-24 compilation, unindexed remainder 6:20:05-6:30:05, coarse locator window

How to read this

Every frame carries a VIDEO-ABSOLUTE time -- seconds from the start of the video at the URL above, NOT seconds from the start of the bout -- printed as text directly above it. Those times run from 6:20:05 to 6:29:45.

Return every timestamp in that same video-absolute clock. If the bout starts partway into the video, say where it starts as a separate field -- do not rebase the event times to it. A bout-relative time reported as an absolute one places the whole fight in a different part of the broadcast, and the result looks plausible while being wrong.

THE CAPTION TEXT BESIDE EACH FRAME IS A GUIDE, NOT GROUND TRUTH. It is an auto-caption of live commentary: the commentator misnames athletes, talks about one bout while another is on screen, anticipates and speculates, and the text lags the picture. When the caption and the frame disagree, THE FRAME WINS. Use the caption to orient where to look and to break a tie on a label -- never to record an event you did not see in the frame itself.

For each event you can see, give:

<code>ts</code>	integer seconds, video-absolute
<code>label</code>	a technique name, taken verbatim from the label list
<code>actor</code>	which competitor did it, by name
<code>successful</code>	true if it landed, false if attempted and stopped
<code>type</code>	one of: control, submission, guard, takedown, pass, transition, sweep, escape
<code>points</code>	points the scoreboard awarded for THIS action; omit if you cannot read it

Points are the one thing the scoreboard is authoritative for, and reading footage is the first time they are visible at all -- a transcript only ever carried what a commentator said aloud. So: report `points` only when you can actually read the number change on the scoreboard between frames, attribute it to the action that caused it, and OMIT the field otherwise. Never write 0 to mean 'I could not tell' -- an action that scored nothing and an action nobody could score are different facts, and only an absent field holds the second. If the score jumps and you cannot see which action earned it, say so in `note` on the nearest event rather than guessing an attribution.

Also return, once per bout: the two competitors' names, the event/card name, the year, who won and how, `bout_start_seconds` -- the video-absolute second the bout begins -- and `final_score` as "a-b" if the scoreboard shows one. If this video contains more than one bout, return one such object per bout.

LABELS ARE A CLOSED VOCABULARY. Take each `label` verbatim from `node_library.json`, which lists every technique the library knows, most-used first. A label is normalised into a node key, and that key IS the node in every graph it reaches -- so a spelling the library does not have does not fail, it mints a second node, and one technique arrives split in two with no error anywhere. Where two listed names could both fit, take the one printed higher: that ordering is how often the corpus already uses it. If a frame genuinely shows something the list does not cover, use your own words and flag it as `new_label: true` rather than bending it into the nearest listed name.

NOT EVERY FRAME IS LIVE ACTION. A broadcast cuts to slow-motion replays, usually right after a finish or a scoring exchange, and a replay looks exactly like the thing it replays. Read one as new action and the same event is recorded twice, seconds apart, which downstream reads as a repeated technique rather than one shown twice. Tells: a graphics bug or logo appears, the clock stops or disappears, the camera angle changes, the action repeats something you already saw. Skip those frames rather than logging them, and say in the note which range you treated as replay.

AND NOT EVERY FRAME IS THIS BOUT. A broadcast cuts away -- to another mat, to a different match's scorecard, to a crowd shot or an ad -- and it may show two bouts in sequence with a gap between rounds. A reader found exactly that in this batch: a scorecard from an unrelated match sitting in the middle of the sampled frames. Events read off a cutaway land on the wrong athletes entirely, which is worse than missing them. Before logging any event, confirm the frame shows the two competitors you identified, and say in the note which ranges you excluded as not-this-bout.

THE SCOREBOARD'S NAME ORDER IS NOT A MAT POSITION. A lower-third graphic puts one name left and one right by broadcast convention; which competitor stands where on the mat is unrelated and changes shot to shot. Binding a name to a body through that order is the single highest-cost error available here, because `actor` is on every event -- get it backwards and the whole answer inverts at once, while still looking internally consistent. Bind identity to something carried ON the athlete instead: a name printed on the back of the rashguard, kit colour, sleeve length, an ankle band, hair. Then check that discriminator against a frame where the scoreboard and the bodies are visible together, and say in `identity\_verified\_by` which frame did it.

REPORT ONLY WHAT YOU ARE CONFIDENT OF -- but report uncertainty by getting COARSER, not by staying silent and not by guessing. If the frames show that something happened and you cannot tell exactly which technique it was, use the generic label the library already carries -- `Guard Pass` rather than a named pass, `Takedown` rather than a named entry, `Submission` rather than a named finish, and likewise `Sweep`, `Escape`, `Guard`. A generic label is the honest answer at the resolution these frames give you; a specific one you inferred is a claim about a technique nobody saw, and once it is in the athlete's graph nothing downstream can tell it from an observed one.

This matters most across the sampling gap. At one frame every 20s a technique can start and finish between two samples, leaving only its result visible -- a competitor who was on top now now underneath, a grip that is now a finish. Recording that result generically is correct. Naming the entry you did not see is not, however obvious it feels. The same rule covers `actor`: if you cannot tell which competitor did it, say so in `note` rather than picking one, because a right technique on the wrong athlete is two errors.

The result line at the top, when there is one, comes from the athlete's BJJ Heroes record. It is there so you can tell the two competitors apart and know the bout ended -- it is NOT evidence of anything you cannot see. Do not report a finish, a technique or a score because that line names it: an armbar listed as the method and an armbar visible in the frames are two different claims, and only the second belongs in your answer.

Only report what a frame actually shows. The scoreboard settles POINTS and nothing else: a technique you infer from a score change but never see is worth less than an omission, because a wrong label propagates into the athlete's graph and their rating and nothing downstream can tell it from an observed one. An omission is recoverable; an invented event is not.

6:20:05 (22805s)

believe in 2019. What an uncomfortable pass that is. Oh my gosh. Leby trying to get up to her feet. Knee pull from Mitrovic. We'll knock her back forward this time. Over hook to her

6:20:25 (22825s)

right side for Mitrovic. About 90 seconds to go. Nothing nothing here. Did have that big taked down in the beginning. And there's her double unders again. See she's able to use this. prefers the outside passing, breaking away and and I believe so that that guard doesn't get locked again. Like she's been able to be so much more dynamic

6:20:45 (22845s)

from a loose passing perspective on the feet as opposed to Mrovic just really slowing her down from there. Trovic so comfortable with the inversion and the heavy over top on the guillotine here again. She's going to end up stacked on the other side.

6:21:05 (22865s)

Double unders. Man, it was almost like Amanda was waiting to catch those legs, right? stacking hard again. Reaching for that under hook. Yeah, this could turn into an arm saddle. Yeah, this could turn into an arm bar situation if is able to throw that right foot through.

6:21:25 (22885s)

Trying to get it through. Not a bad look for as Elizabeth Matrovic with 30 seconds left. Oh, great posture out of Levy. 25 seconds. And again, like something to remember too is that armbar came off of Amanda trying to pass, right? Like that

6:21:45 (22905s)

was something that was a counter that fed off of an initiation. Levy pulls that foot free. Oh, and brings Mitravik back to the feet. And oh, Levy. Looked like she was in on a shot for a second, but we're going to overtime. Overtime. All right, here we go. They got to start from the feet. Four minutes on the clock.

6:22:05 (22925s)

Levy was able to get a big takedown before the points came into effect. CSU is able to replicate that kind of success here when the takedown points actually count. Ready go. All right, here we go. Overtime. Mr. Levy.

6:22:25 (22945s)

Oh, wow. Big bite on the faint. Let's go. And this is where the wrestling experience plays such a huge factor in the ADCC rule set is overtime. I mean, even if you're not well-rounded enough to be a good wrestler, you have to at least be competent at it. You have to understand hand fighting.

6:22:45 (22965s)

Levan defended that time by Mitrovic. Good job keeping the under hooks low.

6:23:05 (22985s)

trying to pull her forward. Listening to her corner and she's coming. She is walking in very tall off the after the faints. Three minutes to go. Trying to match that collar tie.

6:23:25 (23005s)

Man, this is just a testament to how high level each of these finals have been. This is our third final. Yeah, that is on its way to going to a judge's decision if nothing changes. Good job. Arm drag. The drag. Arm drag attempt.

6:23:45 (23025s)

Off balance, Mitrovic, but she was able to recover. A minute and 30 down in overtime. Oh, looking to get in on a leg. Comes back up with it. Got to wonder did Amanda Levy. Oh no. Amanda Levy's knee. Something happened to her knee. Let's go, Amanda. You're all right. Let's go, Amanda. Amanda Levy fighting through the pain.

6:24:05 (23045s)

Something happened to her knee for sure. She shoots in, but immediately is forced. She has to tap. Oh, Amanda Levy. Unfortunate. A tough way for the match to end.

6:24:25 (23065s)

Elizabeth Matrovic is going to be going to the T-Mobile Arena, but Amanda Levy certainly such an unfortunate way for the match to end. Definitely hoping that Amanda will make a quick recovery.

6:24:45 (23085s)

[Music] Lot of respect for Amanda Levy. What a champion. [Applause] Got to wonder what happened to Amanda Levy on the way in on that takedown. But

6:25:05 (23105s)

Elizabeth Matrovic is going to be via injury your ADCC 2024 champion. Yeah. Fought hard the trials. Yeah. gotten. But here, let's take a look at some of the replay before that injury happened.

6:25:25 (23125s)

Amanda Levy really looked like she was in the driver's seat for a good portion of it. Beautiful take down here at the beginning. My gosh. [Music] There. Yeah, there. I'm not sure. The knee was injured well before that because she tried to push for a few minutes or at least a minute. You saw.

6:25:45 (23145s)

Wow. Remember ladies and gentlemen, we're going to have the ADC World Finals. You can catch all of the 20. [Applause]

6:26:05 (23165s)

[Music] [Applause] [Music] Here we go. Motion, Mike. Motion.

6:26:25 (23185s)

Let's go for that snap, Mike. Get him off your head. Snap in the circle. There we go. Let's add those fakes, too.

6:26:45 (23205s)

Let's circle, Mike. Let's circle. Snap his circle. Mike, my good. [Music]

6:27:05 (23225s)

Nice, Mike. Get him off your head, Mike. Let's circle out. Let's circle out. Nice, Mike.

6:27:25 (23245s)

Circle, circle, circle.

6:27:45 (23265s)

Deep breath, Mike. You're good.

6:28:05 (23285s)

Elbow pass. Elbow pass. Let's snap hard on that and circle. Don't let him back you up. Nice. Circle. Circle. [Music] [Applause]

6:28:25 (23305s)

Fight. Two minutes. No point. gloves. Snap and snatch. Mike ready for the elbow pass.

6:28:45 (23325s)

540 left. Elbow pass. Get that collar off your Nice. Nice. five and a half minutes. Mike, get that tie off. You clear that tie.

6:29:05 (23345s)

Clear that tie. Elbow pass him. Elbow pass. Circle. Circle. Circle. Re-shot. Nice.

6:29:25 (23365s)

Hey, don't be afraid to do your jiu-jitsu. Hey, reach elbow down, bitch. One minute until points. Action, guys. Action. That's a good time right now, Mike.

6:29:45 (23385s)

50 seconds till points. Snap and snatch.
